

Direct Air Dryers

The Revolutionary System for Reduced Drying Times

The Revolutionary System for Extending Air Mover Performance --- Reducing Drying Times

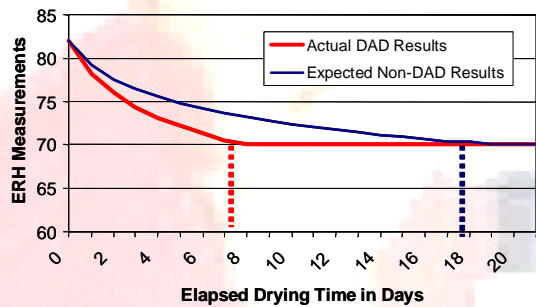

Lightweight 'Regular' D.A.D Solution

Recommended solution for drying **standard or medium sized rooms**

Use the **Lightweight Regular D.A.D** as a flexible approach for drying standard and medium sized rooms in place of your conventional drying approach.

Optimised for the flood management industry, the new **D.A.D Lite** is derived from the original design and based on feedback from operators and more than two years operational experience.

Reduce Drying Times by up to 50%
